hi

my name is james luther i am disabled and use the internet and computers all day long, i live computers and i must say leave Bill Gates and Microsoft alone. Bill Gates is a pioneer and should be honored for his achievements, he produces the best product bar none. has given mucho money to charitable organiztions, employed thousands and made computers accessiable to every moron who can afford one and other morons who couldnt i might add. The man is a inventor and true business leader, he should be encouraged to continue on in his tasks, his company and there ideals exemptify whats right with this country, not wrong. If anyone cant compete with him is it really his fault? let this guy go and encourage him to work on some of the worlds problems hell he is the smartest(excluding myself of course)man in the usa, hell he ough to run for president, id vote for him. good luck bill stick it to those dumb ass beaucrats. best of luck and i hope you make another 70 billion. captialism rules.
